

# Instructions

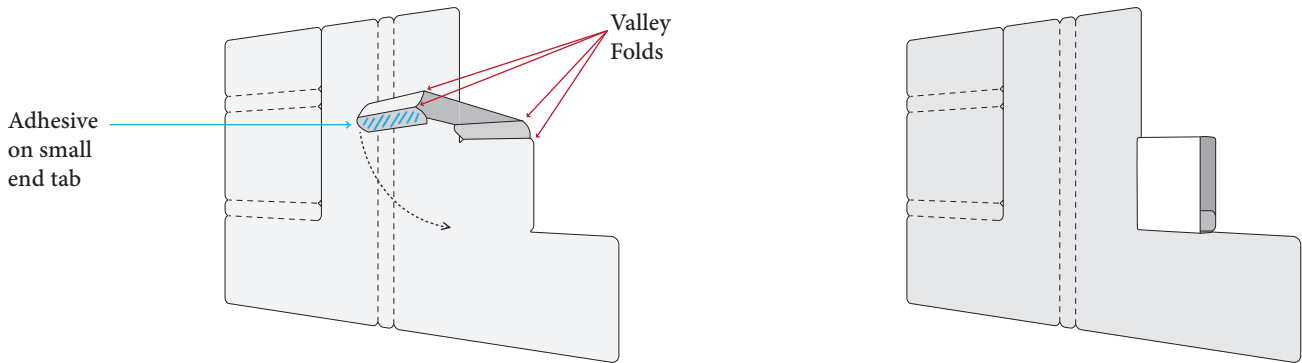

You will need:  
 - Stepped Box Cardshape Die

## How to create a Stepped Box Cardshape

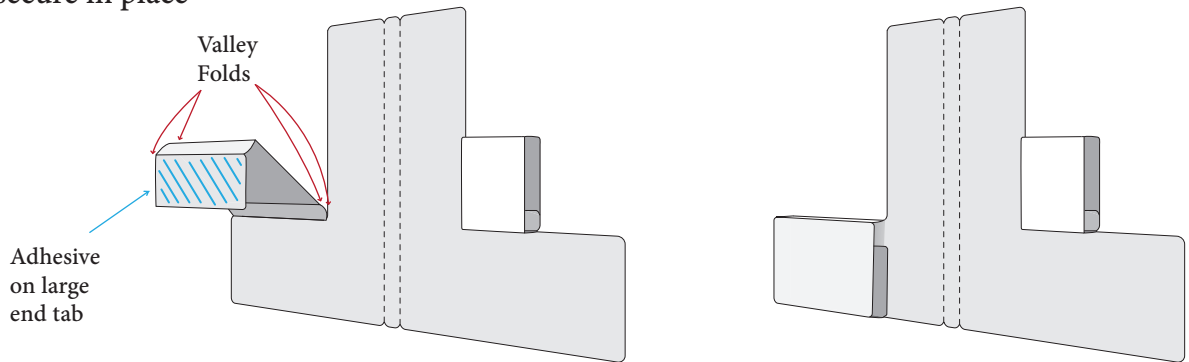

1. Take your Stepped Box Cardshape die and your desired cardstock and run this through your cutting machine. Once cut, flip your die cut over ready to create your cardshape.

2. Take the small right hand box-section and valley fold the lines downwards to create a box. Stick the end tab to secure in place

3. Take the larger left hand box-section and valley fold the lines downwards to create a box. Stick the end tab to secure in place

4. Fold the lines down the middle (shown in diagram) to create the final Stepped Box Cardshape.
